COPPER AND GOLD

**CASINO**

WESTERN COPPER AND GOLD CORPORATION (TSX:WRN | NYSE-AMERICAN:WRN) is advancing the world-class, critical minerals Casino mining project through environmental permitting, development and ultimately project construction in the Yukon. With a strategic investment from two of the largest mining companies (Rio Tinto and Mitsubishi Materials), and an organizational commitment to sustainable mining practices, the Company has the potential to become a landmark, multi-generational business in Canada.

## POSITION

### Field Operations and Logistics Manager

#### POSITION SUMMARY

The Company is looking for a Field Operations and Logistics Manager (herein referred to as “Manager”) to be responsible for the overall management of field operations and logistics for the Casino copper and gold project in the Yukon Territory. The Manager is responsible for ensuring that all operational, logistical, and facility-related aspects of camp and field support run safely, smoothly, and efficiently. This role prepares recommendations, plans, establishes contracts, oversees camp set up and daily operations, supports with a variety of supporting site services, coordinates staff and vendor logistics, manages supplies and equipment (including maintenance), and supports the delivery of an exceptional camp experience. The ideal candidate is organized, collaborative, solutions-oriented, comfortable in a fast-paced environment, and passionate about creating a safe, functional, and welcoming camp environment.

The Manager will be office-based in the Yukon during the off season when camp is not open and full-time at site when open. Even when camp is not open, there are regular trips to and activities on site including environmental monitoring, site visits, and third party uses. Program and task planning, procurement, coordinating with others, trade-off studies, continuous improvement of policies, processes, and templates are year-round responsibilities. The ideal candidate is experienced with short and long-term planning and has experience in operations and field work in a northern climate.

The position will report directly to the VP, Projects and will work closely with the existing team.

#### LOCATION

The Field Operations and Logistics Manager will be based in the Yukon. Regular rotations on site will be required when camp is open.

#### KEY RESPONSIBILITIES

- Lead health and safety initiatives to ensure compliance and continuous improvement with health, safety, human resources, and regulatory requirements as well as be the point person for emergency procedures and safety protocols.
- Negotiate contracts and manage camp and field support operations and logistics, ensuring programs run according to agreed scope and on schedule and on budget.
- Support the ongoing management of mineral claims and permits proactively to ensure compliance and realize opportunities.
- Manage, maintain, and upgrade site facilities, equipment, and grounds to keep facilities and infrastructure clean, safe and functional for immediate and longer-term use.
- Responsible for all equipment (mobile, vehicles, generators, etc.) at site including preventative maintenance, repair, rebuild, and vendor/supplier relationships
- Manage procurement, inventory, storage, and distribution of supplies, spare parts, and materials, for camp operations and equipment.
